# Success Starts Here

Since our founding in 1909, Milton Hershey School has been helping students from low income and working-class families lead successful lives. For 110 years and counting, MHS has been a place where students' potential is met with life-changing opportunity—free of charge.

## A Top-Notch Education

Founder Milton S. Hershey firmly believed education and training were essential to students leading fulfilling and productive lives. That belief led to the early creation of challenging and career-focused curriculum at the school. Today's rigorous coursework includes STEAM (science, technology, engineering, arts, and math), problem-solving principles, and hands-on, technical training that aligns with the current job market.

## Whole Child Care

At MHS, we are committed to providing students with best-in-class care using a whole child approach that allows students to overcome the obstacles low income and working-class families face and live out their dreams. Our holistic approach to care includes services at no cost to our students including medical, dental, and social work services, as well as food, clothing, and a nurturing home life.

## A Home and School

MHS is a home and school for students year round and they may return home over the summer, during breaks, and over weekends. The Home Life experience is at the core of each child's stability and safety while they are here in Hershey, Pennsylvania.

Each child is cared for by a married houseparent couple who provide guidance, support, and discipline outside of the classroom. Houseparents, teachers, and other MHS staff all work together to keep parents/guardians informed and in touch with their student.

*Milton Hershey School admits qualified students of any race, color, national or ethnic origin, ancestry, sex, religious creed, disability, or any other status protected under applicable federal or Pennsylvania law.*

*Students must be 4-15 years old at the time of enrollment. While MHS believes all children deserve the very best education, the School is not right for every child. Learn more about admissions considerations at [mhskids.org/admissions](https://mhskids.org/admissions).*
